North Central Finance Ltd.

FOREWORD

The purpose of GLASS'S INDEX OF REGISTRATION NUMBERS is to provide a record of Index Marks issued by Licensing Authorities so that the year of first registration of any vehicle may be traced together with the issuing authority. By January 1965 all Licensing Authorities in Great Britain had adopted the Ministry of Transport's "seven-symbol system" of vehicle registration: the suffix letter used in this system denotes the year of first registration (A=1963, D=1966, E=1967 etc.). Further publications of GLASS'S INDEX, therefore, can serve no useful purpose whilst this system is in operation and yearly issues will lapse unless fresh developments make a new edition desirable.

EXPLANATORY NOTES

The Index contains a complete record of all Index Marks commenced or completed from 1929 to January 1965. When Index Marks were first issued, the Ministry of Transport allocated single and 2-letter Marks to Licensing Authorities. With the growth in vehicle population Licensing Authorities added a prefix letter to their 2-letter Marks starting with 'A' and running through the alphabet. Thus 2-letter Mark AB was originally allocated to Worcestershire and subsequently AAB was put into use followed by BAB, CAB et seq. It will be seen that it is possible to determine the issuing authority from the last two letters of any Index Mark and to do so readers are advised to use the following process:—

> Refer to the "3-Letter Index Mark Preceding" section of this Index (pages 26-37) and look up the last two letters required. For instance, to determine the issuing authority of CAB refer to AAB (page 26)= Worcestershire.

However, the following exceptions should be noted. MAN was allocated to the Isle of Man C.C., GPO and USN to London C.C. Also London and Middlesex C.Cs., E. Ham, W. Ham and Croydon C.B.Cs. were all amalgamated into Greater London C.C. on 1st April 1965. Cambridge C.C. amalgamated with Isle of Ely C.C. and Huntingdonshire C.C. with Peterborough C.C.

To ensure more accurate dating of any vehicle, the Index should always be used in conjunction with Glass's Check Books (for Cars, Commercial Vehicles and Motor Cycles) for the following reasons:—

1. Blocks of registration numbers issued to Motor Traders are not always re-issued by them in numerical order or between the dates published.
2. Re-imported vehicles require re-registration.
3. Imported and Ex-Service vehicles require registration.
4. A "Cherished" registration number may be transferred from one vehicle to another on payment of £5. The vehicle from which the Number is transferred then requires re-registration.

Prior to the introduction of the seven-symbol system vehicles in 2, 3 and 4 above requiring registration, were allocated a current year registration number regardless of their age.

Since the introduction of the seven symbol system, a vehicle in:—

2 opposite. Is allocated its original seven-symbol Index Mark, number and suffix or a Mark and Number from the old system, whichever applies.

3 or 4 opposite. Is allocated an Index Mark, the suffix letter of which is, as near as possible, appropriate to its age or a Mark and Number from the old system, whichever applies.

In order to meet the need to issue back Index Marks and numbers both of the old system and new, Licensing Authorities are retaining each year a quantity of numbers from the seven-symbol Marks. They have also retained a quantity of numbers from the old system and will if necessary bring into use another Mark of the old system. It would therefore be misleading to include last numbers issued. For 2-letter Marks, last numbers however, are included.

Block Allocations. Many Licensing Authorities are setting aside blocks of numbers for allocation solely to the Motor Cycle class. In the majority of cases this is 1-99, but unless the dates of issue for this section differ, they are not shown separately in this edition.

Home Delivery Export Scheme. A pink Registration Book marked RF 60 EX is issued for vehicles delivered under this scheme. If a vehicle is subsequently re-registered in the U.K. a normal Registration Book is issued.

We are glad to record our thanks to all the Licensing Authorities who have provided details making possible the publication of this edition. Whilst every care has been taken to ensure accuracy, no responsibility can be accepted by the publishers for any errors which inadvertently may have occurred.
